Explaining to Homework 4 Bonus 1(Virtual Pet)

1. At first program will ask a name of the pet.

2. You will have options what to do with pet (Feed, clean or play)

3. To choose your option you have to enter on keyboard 1(Feed), 2(Clean) or 3(Play).

4. Each time program will show you current status of hunger, cleanliness and boredom. To get the best result, you need to build on the state of the pet that will be shown.

5. If you lose, the game will show you how good a player you are and will ask you if you want to play again or not. Type 1 to restart the game, type 2 to exit.

6. If you entered 1 you will play again with another pet. But, if you entered 2, then you will be given your result in the form of two lines. The first line will have the names of the pets you created and their age on the second line.
